

2019 PRODUCT CATALOG

Top-Tier Precision

Anarchy Outdoors is a market leader in customized, spec-built precision firearms gear and accessories.

Our custom designed products are more than standard gear- they're meticulously researched labors of love. Each part we put our name on has been carefully designed with an eye on innovation and specs we'd only use on our own firearms. Implementing experience and know-how, we've keyed our parts to the high standards of the professional community with the end user in mind every step of the way.

Our singular focus on designing the best parts in the industry reflects in consistent five star reviews. "Amazing", "Perfection" and "The Best I've ever used" are the currency of expectation we design to.

Founded in 2015 and located in the heart of The Rocky Mountains, Anarchy Outdoors hand-picks the parts we offer to our retailers, with a guarantee the quality and precision of our curated inventory is top notch. If we don't put it on our own guns, we don't offer it.

With a fire-breathing passion for exacting customer service, we're confident in our ability to deliver top-tier precision gear and parts for any shooter at any level.

"BEST OUT THERE!"

I just purchased my second Penguin grip. This is the best vertical grip I have used...bar none. I have the MPA vertical grip and it is also a good grip but the AO stands alone and at the top...you won't be disappointed.

— Eric

"PERFECTION!"

I used this grip for the first time at a PRS club match last weekend. My hand was perfectly in line with the trigger, the shots broke smoother than before, and everything just felt right when using this grip. I didn't realize how much a difference the right grip would make, but this vertical grip made a huge difference in my performance. I shot my best match to date after switching to the APRG!

— Kalista

Precision Rifle Grips

ANARCHYOUTDOORS.COM

AR style Grip works on any chassis or AR style precision rifle with an ambidextrous 45° safety selector.

- Allows direct alignment of index finger.
- Flat grip with a true thumb rest.

Grip geometry allows for unparalleled speed in situating your rifle for improvised shooting positions.

Manufactured in the U.S.A. by military veterans with industrial grade "Nylon 12".

Available in Left or Right Handed versions.

PENGUIN
2.55"

EMPEROR
2.82"

Methodically developed over the last several years by a former 3rd Ranger Battalion special operations soldier with help by several individual Federal Law Enforcement Agents, our unique grip was designed to give Precision Rifle Competitors an edge with quick, repeatable, and ergonomic action on the gun. The grip's design allows for true thumb rest positioning while allowing the index finger to be placed lower and directly in-line with the trigger. This development was critical in reducing shooter fatigue when behind the gun for long periods of time. The palm swell allows for greater control and manipulation of the firearm while the palm shelf allows the shooter to rest their hand to transition instantly if the need arises.

Throw Levers

ANARCHYOUTDOORS.COM

Zoom in and out quick and easy.
Great for the precision range
shooters and hunters alike.

Manufactured from Nylon 11 composite
material for maximum strength and
durability with an HD Finish.

Ceramic Coated counter sunk
thread insert for the most
secure install

Post Processed for Premium Fit and Feel

Easy View Window

Manufactured in the U.S.A.

Speed up your magnification adjustments today, by upgrading your optic with one of our throw levers. Anarchy Outdoors' throw levers are a key addition to any optic, from the top level competitor to the most casual hunter or recreational marksman. Our throw levers are specifically designed for each scope model for a premium fit and feel. The throw levers are made using the latest in on demand manufacturing, and are crafted out of an incredibly strong Nylon 11 material. We use a specially designed ceramic coated thread insert for the most secure install. All, our unique throw lever designs allow the shooter to see through the throw lever instead of blocking the elevation turret.

ANARCHY OUTDOORS

Available for many scope brands
including Vortex, Athlon, Kahles,
Primary Arms, Leupold and many more.

Amazing!

This is the best and only thing to use if you have a law tac folder. A great solution for the LAW folder and JP Silent Buffer.

— CDiddy

A Great Solution

I never even thought about the LAW folder and JP Silent Buffer not working together until I tried it on my latest build. So glad you offer this product and at a reasonable price seeing as it's the only one of its kind. Functions perfectly.

— Jonathan

Tactical Folding Bolt Carrier Extension

ANARCHYOUTDOORS.COM

Three O ring adapters provided for a secure fit inside a variety of standard bolt carriers.

Made of 17-4 stainless steel with a Black Nitride Finish.

- Increased wear resistance
- Improved fatigue strength
- Better corrosion resistance
- Improved lubricity

Designed specifically to operate with the Armaspec Silent Buffer and JP Silent Capture Systems in conjunction with the need for Tactical Folding Stock capability.

Manufactured in the U.S.A.

Anarchy Outdoors is on the forefront in developing must-have aftermarket parts engineered to enhance, refine and improve the shooting experience. Our Tactical Folding Carrier Extension enables folding stocks to be used with the JP Silent Buffer by removing the solid rod that prohibits a folding stock. The extension cancels spring noise and balances weight characteristics for a smooth recoil experience and optimized functionality.
