Top-Tier Precision

Anarchy Outdoors is a market leader in customized, spec-built precision firearms gear and accessories.

Our custom designed products are more than standard gear- they're meticulously researched labors of love. Each part we put our name on has been carefully designed with an eye on innovation and specs we'd only use on our own firearms. Implementing experience and know-how, we've keyed our parts to the high standards of the professional community with the end user in mind every step of the way.

Our singular focus on designing the best parts in the industry reflects in consistent five star reviews. "Amazing", "Perfection" and "The Best I've ever used" are the currency of expectation we design to.

Founded in 2015 and located in the heart of The Rocky Mountains, Anarchy Outdoors hand-picks the parts we offer to our retailers, with a guarantee the quality and precision of our curated inventory is top notch. If we don't put it on our own guns, we don't offer it.

With a fire-breathing passion for exacting customer service, we're confident in our ability to deliver top-tier precision gear and parts for any shooter at any level.

"Great Product"

Great product if your'e looking to add some MOA for long range and the addition of the level in your line of sight is awesome!

"BEST OUT THERE!"

I just purchased my second Penguin grip. This is the best vertical grip I have used...bar none. I have the MPA vertical grip and it is also a good grip but the AO stands alone and at the top...you won't be disappointed.

— Eric

"PERFECTION!"

I used this grip for the first time at a PRS club match last weekend. My hand was perfectly in line with the trigger, the shots broke smoother than before, and everything just felt right when using this grip. I didn't realize how much a difference the right grip would make, but this vertical grip made a huge difference in my performance. I shot my best match to date after switching to the APRG!

— Kalista

Precision Rifle Grips

ANARCHYOUTDOORS.COM

AR style Grip works on any chassis or AR style precision rifle with an ambidextrous 45° safety selector.

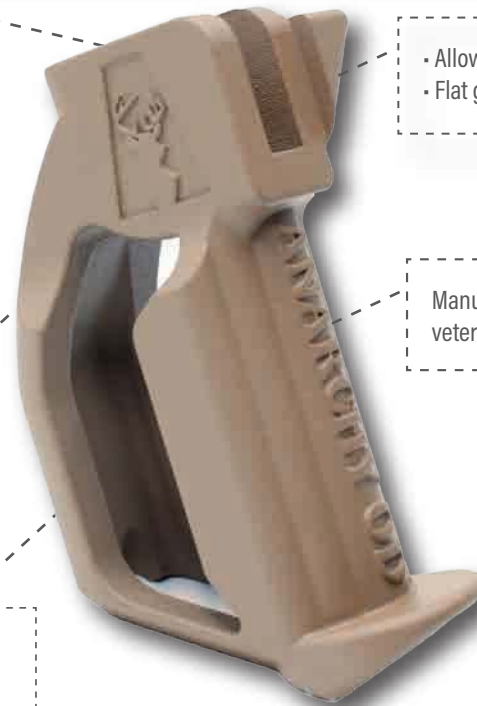

- Allows direct alignment of index finger.
- Flat grip with a true thumb rest.

Grip geometry allows for unparalleled speed in situating your rifle for improvised shooting positions.

Manufactured in the U.S.A. by military veterans with industrial grade "Nylon 12".

Available in Left or Right Handed versions.

Methodically developed over the last several years by a former 3rd Ranger Battalion special operations soldier with help by several individual Federal Law Enforcement Agents, our unique grip was designed to give Precision Rifle Competitors an edge with quick, repeatable, and ergonomic action on the gun. The grip's design allows for true thumb rest positioning while allowing the index finger to be placed lower and directly in-line with the trigger. This development was critical in reducing shooter fatigue when behind the gun for long periods of time. The palm swell allows for greater control and manipulation of the firearm while the palm shelf allows the shooter to rest their hand to transition instantly if the need arises.

ANARCHYOUTDOORS.COM

Muzzle Brakes

Available in these thread sizes:

- 3/4" x 24
- 3/4" x 20
- 5/8" x 24
- 1/2" x 28

Available in these colors:

- Black
- Polished Titanium
- Bead Blasted
- Gray
- FDE
- OD Green

Precision machined.

Spiral ports reduce recoil.

Easily threads on to barrel.

Our Titanium Muzzle Brakes are designed by a master gunsmith and are some of the best and lightest on the market. The spiral port outlets along with the parabolic internal taper significantly reduces recoil while not making it overly loud. It is a must have for any RAR or lightweight mountain gun.

"Great swap for the original part."

"This is a much nicer piece and the finish matches the bolt perfectly. I went ahead and got the model with the tool and am glad I did. It's far superior to Ruger's plastic version. This bolt shroud makes the bolt feel stronger and gives me more confidence. I'd recommend it to anyone wanting to make small improvements to a great rifle."

★★★★★ — Bruce H

Manufactured in the U.S.A.

Ruger Precision Bolt Shroud Replacement

ANARCHYOUTDOORS.COM

Tighter fit reduces play and rattle with the bolt vs factory shroud

Polished Titanium or Aluminum
Type 2 Class 3 Anodization finish
for added style and durability

A bolt shroud made of titanium balances out the bolt weight and enhances the throw during bolt manipulation. This increases the throw and speed of cycling your shot as well as reducing the possibility of binding

17-4 Stainless steel firing pin
removal tool vs plastic factory tool

Available in Polished Titanium or
Black Anodized Aluminum

- Available in solid or fluted styles
- Available with embedded firing pin removal tool
- Available for short action or magnum calibers

The Ruger Precision Rifle Bolt Shroud Replacement is the only aftermarket complete factory shroud replacement. The RPR comes with plastic tool that is prone to breaking. The Ruger Precision Rifle Bolt Shroud Replacement comes with the option to add a self contained stainless steel firing pin tear down tool. All our parts are guaranteed for life.

"Fits and feels perfect!"

The factory bolt knob does the job. However, when compared to the feel of this, it's not even close. When using the rifle, the one component that is noticed and felt the most is the bolt assembly. Anything that can be done to make it function better and look and feel better is a plus!

★★★★★ — Bruce H.

Manufactured in the U.S.A.

Bolt Knobs

DRAGON SCALE

Polished Titanium or Black Anodized finish options.

The Dragon Scale design allows for grip when cycling, but also allows fingers to slip over when needed.

Short (1.5") and Long (1.9") length options.

Great for extra grip due to style and length.

GRENADE

The cold weather knob. Great grip even while wearing gloves on that late elk hunt.

SPHERE

The 1" circumference allows full finger throw and easy location without removing your eye from the reticle.

ACORN

Smooth receiver end with 3/4 textured grip for precision purchase.

FLUTED

Apply compact distinction and grooved grip to your bolt mechanics.

We pride ourselves in our ability to deliver high quality, precision, cutting edge gear for any firearm enthusiast. Enjoy purchasing Anarchy Outdoor products with confidence knowing all Anarchy Outdoors' developed products come with a Lifetime Replacement Guarantee. Our bolt knobs are great dress up for any rifle with a 5/16 x 24 threaded bolt handle.

"Great Bolt Handle Upgrade!"

This bolt handle upgrade was a great buy. It was easy to install- less than 5 minutes, and fits perfectly. I bought the small black dragon scale knob to go with it and it also fit perfectly. Would recommend to anyone doing a bolt handle upgrade for their rifle.

★★★★★ — Daniel M

Manufactured in the U.S.A.

Threaded Bolt Handles

Silver or Black Nitride finish options.

Slight angle allows optimal bolt manipulation.

Thread accepts any 5/16 x 24 bolt knob.

Black Nitride finish shown to improve the operational capabilities of your handle by reducing wear and corrosion.

Threaded bolt handle allows for addition of a custom bolt knob.

Perfect Pairing with any of our bolt knob options:

Tailored for perfection, our Precision Bolt Handles are built for strength and durability. Made from 17-4 Stainless Steel for optimal use with an option of Black Nitride finish shown to improve the operational capabilities of your handle by reducing wear and corrosion. Threads accept any of our 5/16 X 24 TPI bolt knobs which can be selected as an additional add-on at the time of purchase.

CZ Bottom Metal

Introducing an Anarchy Outdoors exclusive: The CZ 457 bottom metal, now available with or without the integrated small barricade stop. Each piece is manufactured from 7075 aluminum and anodized black to add that flare to your competition .22 rifle. The bottom metal adds rigidity to increase accuracy as the user can tune the accuracy by adjusting the torque on the action screws*. The biggest game-changer with this the integrated barricade stop. By having it built as part of the bottom metal it provides extra strength and rigidity. Included with the package is an additional extra, our own extended magazine release to aid in quick change out of your magazine while maintaining your eye on the target during mag change outs.

*May require some small fitting on aftermarket stocks.

Zoom in and out quick and easy.
Great for the precision range
shooters and hunters alike.

Manufactured from Nylon 11 composite
material for maximum strength and
durability with an HD Finish.

Ceramic Coated counter sunk
thread insert for the most
secure install

Post Processed for Premium Fit and Feel

Easy View Window

Manufactured in the U.S.A.

Speed up your magnification adjustments today, by upgrading your optic with one of our throw levers. Anarchy Outdoors' throw levers are a key addition to any optic, from the top level competitor to the most casual hunter or recreational marksman. Our throw levers are specifically designed for each scope model for a premium fit and feel. The throw levers are made using the latest in on demand manufacturing, and are crafted out of an incredibly strong Nylon 11 material. We use a specially designed ceramic coated thread insert for the most secure install. All, our unique throw lever designs allow the shooter to see through the throw lever instead of blocking the elevation turret.

Available for many scope brands
including Vortex, Athlon, Kahles,
Primary Arms, Leupold and many more.

"Awesome!"

This thumb rest provides an excellent and more importantly a repeatable location for your thumb. Highly recommended!

★★★★★ — Larry

Manufactured in the U.S.A.

AI Thumb Rests

COMPATIBLE RIFLES: RIFLE FAMILIES

VERSION "AT" (requires a special metal threaded insert)

- Factory AIAT – folding stock only
- ATAICS – all folding stock variants, fixed stock variants in 300WM and 338LM ONLY
- Pre-14' factory AIAX – folding stock only
- Pre-14' AXAICS – folding stock only

VERSION "AX"

- Post-14' factory AX, AXMC – folding stock only
- Post-14' AXAICS – folding stock only

This bolt-on thumb rest provides a comfortable and repeatable thumb position on the strong side of the grip without permanent modifications to the chassis or plastic stock skins. The thumb rests are manufactured from composite Nylon 11 material, resulting in a strong, thin, and perfectly textured interface. Removal of the "locking" stock capture on the folding AX rifles is necessary to install the thumb rest. The buttstock will still fold 100% closed, but it will no longer utilize the plastic retaining piece.
