

### "Fits and feels perfect!"

The factory bolt knob does the job. However, when compared to the feel of this, it's not even close. When using the rifle, the one component that is noticed and felt the most is the bolt assembly. Anything that can be done to make it function better and look and feel better is a plus!

★★★★★ — Bruce H.

Manufactured in the U.S.A.

## Bolt Knobs

### DRAGON SCALE

Polished Titanium or Black Anodized finish options.

The Dragon Scale design allows for grip when cycling, but also allows fingers to slip over when needed.

Short (1.5") and Long (1.9") length options.

Great for extra grip due to style and length.

### GRENADE

The cold weather knob. Great grip even while wearing gloves on that late elk hunt.

### SPHERE

The 1" circumference allows full finger throw and easy location without removing your eye from the reticle.

### ACORN

Smooth receiver end with 3/4 textured grip for precision purchase.

### FLUTED

Apply compact distinction and grooved grip to your bolt mechanics.

We pride ourselves in our ability to deliver high quality, precision, cutting edge gear for any firearm enthusiast. Enjoy purchasing Anarchy Outdoor products with confidence knowing all Anarchy Outdoors' developed products come with a Lifetime Replacement Guarantee. Our bolt knobs are great dress up for any rifle with a 5/16 x 24 threaded bolt handle.
