

Amazing!

This is the best and only thing to use if you have a law tac folder. A great solution for the LAW folder and JP Silent Buffer.

— CDiddy

A Great Solution

I never even thought about the LAW folder and JP Silent Buffer not working together until I tried it on my latest build. So glad you offer this product and at a reasonable price seeing as it's the only one of its kind. Functions perfectly.

— Jonathan

ANARCHYOUTDOORS.COM

Tactical Folding Bolt Carrier Extension

Three O ring adapters provided for a secure fit inside a variety of standard bolt carriers.

Made of 17-4 stainless steel with a Black Nitride Finish.

- Increased wear resistance
- Improved fatigue strength
- Better corrosion resistance
- Improved lubricity

Designed specifically to operate with the Armaspec Silent Buffer and JP Silent Capture Systems in conjunction with the need for Tactical Folding Stock capability.

Manufactured in the U.S.A.

Anarchy Outdoors is on the forefront in developing must-have aftermarket parts engineered to enhance, refine and improve the shooting experience. Our Tactical Folding Carrier Extension enables folding stocks to be used with the JP Silent Buffer by removing the solid rod that prohibits a folding stock. The extension cancels spring noise and balances weight characteristics for a smooth recoil experience and optimized functionality.
