Manufactured in the U.S.A.

Speed up your magnification adjustments today, by upgrading your optic with one of our throw levers. Anarchy Outdoors' throw levers are a key addition to any optic, from the top level competitor to the most casual hunter or recreational marksman. Our throw levers are specifically designed for each scope model for a premium fit and feel. The throw levers are made using the latest in on demand manufacturing, and are crafted out of an incredibly strong Nylon 11 material. We use a specially designed ceramic coated thread insert for the most secure install. All, our unique throw lever designs allow the shooter to see through the throw lever instead of blocking the elevation turret.
