Case Study

SANTA CLARA S.W.A.T.

When the Santa Clara S.W.A.T. Team
needed new clothing & gear for their
tactical outfitting...
Anarchy Outdoors answered the call.

GEAR UP

With a kit that included Striker HT Combat pants, Striker XT Combat Shirts and insertable Flex-Soft knee pads, Santa Clara S.W.A.T. was able to stay on the bleeding edge of tactical gear while staying well within budget parameters.

PREPARATION BREEDS SUCCESS

MODULAR GEAR. MODULAR TEAM.

- 01 | UF PRO STRIKER HT COMBAT PANTS** offered all the necessary tactical elements + freedom of movement + rugged wear + built-in vents for ultimate comfort with enough pocket space for essential gear.
- 02 | UF PRO FLEX-SOFT KNEE PADS** were the perfect modular upgrade to the HT Combat pant for superb cushioning of the knees with no extra strapping required.
- 03 | UF PRO STRIKER XT GEN.2 COMBAT SHIRT** provided extreme comfort and durability in design thanks to a materials mix (ripstop, abrasion resistance knit, anti-odor Merino/polyester fabric) and upgradeable air/pac inserts, which allow the garment to dry insanely fast and offer functional storage capacity with reliable elbow protection.
- 04 | WITH MULTIPLE TEAMS OPERATING** with integrated/modular modalities, Santa Clara's multi-functional SERT teams are now outfitted with field-tested and bleeding edge tactical clothing built to support and enable when their skills are called upon.

“After many long and tiresome searches and many trials and tribulations of testing out costly uniforms, I have finally found a company that makes the world’s perfect uniform...”

A photograph of four police officers in tactical gear, including helmets, vests, and rifles, standing in a line against a concrete wall. The officer on the far right is aiming his rifle. The word 'POLICE' is visible on the vests of the second, third, and fourth officers from the left.

FOCUS

Ventilation, light weight, durability,
and very stylish just to add a few, but
ultimately they are comfortable and
functional... All of my crew fell in love
with UF Pro products as soon as I
showed them what they had to offer"
